Jagjit Srail: Dr Jag Srail is a Director of Research at the Department of Engineering, University of Cambridge, where he is Head of the Centre for International Manufacturing, Institute for Manufacturing. Research projects explore the disruptive impacts of new production and digital technologies on supply chains, markets and regulation, involving close collaborations with industry, academia, and public bodies. Within Cambridge, Jag is co-Chair of the Interdisciplinary Research Centre on Global Food Security. He also advises leading multinationals, governments and international institutions including UNCTAD, UNIDO, and World Economic Forum where he co-Chairs the Council on Advanced Manufacturing. Dr Srail holds a first-class honours degree in Chemical Engineering from Aston University, MPhil and PhD degrees in International Supply Networks from Cambridge University, is a Chartered Engineer and a Fellow of the Institute of Chemical Engineers.

Keynote speakers

Jagjit Srail, University of Cambridge, UK:
“Digitalization in Manufacturing and Supply chains”

Alexandra Galef, IKEA of Sweden:
“Sustainability at IKEA: Becoming People and Planet Positive by 2030”

Alexandra Galef: Alexandra (Aly) Galef is a sustainability expert with a passion for transformational sustainability movements that focus on long term and equitable change. Aly has worked on sustainability topics across the public and private sector for the past 9 years. Aly is currently a Sustainability Development Leader for IKEA, and is leading several projects including on raw material traceability, clean air, and the digital sustainability. She began her sustainability journey working for a Moroccan NGO specializing in organic agriculture, and spent several years with the United Nations Environment Programme on green economy policy. She has a Masters in Green Management, Energy and Corporate Social Responsibility from Bocconi University, and has lived and worked in 5 countries.
