VENUE

The Conference will be hosted at Scuola Grande San Giovanni Evangelista in Venice (Italy). Venice is one of the best-known tourist destinations in the world. The city has an average of 18 million tourists a year thanks to its celebrated art and architecture. It boasts numerous attractions including St. Mark's Basilica, the Doge's Palace, the Grand Canal, and the Piazza San Marco. The Lido di Venezia is also a popular international luxury destination. Reaching Venice is easy. The nearest airports are Venice Airport and Treviso Airport.

CONFERENCE CHAIR

Guido Orzes, Free University of Bozen-Bolzano, Italy

CONFERENCE CO-CHAIRS

Giovanna Culot, University of Udine, Italy
Guido Nassimbeni, University of Udine, Italy
Matteo Podrecca, Free University of Bozen-Bolzano, Italy
Marco Sartor, University of Udine, Italy

ORGANISING COMMITTEE

Beatrice Bais, Free University of Bozen-Bolzano, Italy
Cinzia Battistella, University of Udine, Italy
Alberto Felice De Toni, University of Udine, Italy
Irene Marcuzzi, University of Udine, Italy
Margherita Molinaro, Free University of Bozen-Bolzano, Italy
Pietro Romano, University of Udine, Italy
Nunzia Zecchillo, Free University of Bozen-Bolzano, Italy

EUROPEAN DECISION SCIENCES INSTITUTE

14TH ANNUAL EDSI CONFERENCE

THE SCIENCE OF
RESPONSIBLE DECISIONS

JUNE 3RD- 5TH, 2024
VENICE

UNIVERSITY OF UDINE (ITALY)
FREE UNIVERSITY OF BOZEN-BOLZANO (ITALY)

ABOUT EDSI

EDSI, a regional division of the Decision Sciences Institute (DSI), is a non-profit organization of European researchers, managers, educators, and students interested in decision-making in private and public organizations (<https://edsi.decisionsciences.org/>).

EDSI works toward accomplishing DSI's vision of becoming the premier society for decision-making professionals.

THE SCIENCE OF RESPONSIBLE DECISIONS

The conference theme, "The Science of Responsible Decisions," addresses the urgent need for action on the multifaceted and complex challenges of our time, from climate change and energy sustainability to global health and economic inequality. With a growing population, the demand for resources strains the planet's ecosystems, while technological advancements and social and political unrest pose new challenges to global stability and security.

Addressing these grand challenges requires a collective effort and a long-term perspective, with academia playing a crucial role in developing evidence-based approaches to decision-making and engaging with key stakeholders.

The conference aims to serve as a platform for interdisciplinary collaboration, bringing together experts from different fields and countries to progress on these complex issues and build a more sustainable and just world.

CALL FOR PAPERS

The general program welcomes contributions not related to the conference topics and addressing relevant issues in all areas of decision sciences. Potential topics include but are not limited to:

- Behavioural Operations Management
- Big Data and Analytics
- Blockchain Technology
- Circular Economy
- Climate Change
- Health Care Management and Operations
- Industry 4.0/5.0
- Information Systems
